BOSTONIANS ARE CALLED IN GRAND TRUNK INQUIRY

and I am sure that indictments could and would be returned."

After charging that the entire stock of the Southern New England railway is owned in Canada by the Grand Trunk, the witness said:

The attention from Palmer to Providence, recently abandoned, was only a part of the proposed Grand Trunk plan ultimately to get into Boston over its own rails.

In consequence of his knowledge of the plan, the Massachusetts legislature appropriated several million dollars for the improvement of the port of Boston. This money, of course, was practically lost when the Grand Trunk without warning abandoned its plan.

Mayor Fletcher of Providence has been reported to say that he had been told by Grand Trunk officials that the plan to build a line from Providence to Boston was abandoned. The Grand Trunk was not included in their agreement with the New Haven.

He added, though, said Marston.

Marston said that President Chamberlain of the Grand Trunk had told him that the abandonment of the line was not included in their agreement with the New Haven.

New Offer to President Mellen; \$5,000 for Complete Confession

The AMERICAN, yesterday, by telegraph and letter, offered the free use of its columns to President Mellen of the New Haven Railroad for the publication of the statement he voluntarily asked to be permitted to give to a United States Grand Jury.

Mr. Mellen has not replied to the AMERICAN's offer. So this newspaper hereby renews it. And further, offers to pay \$5,000 to any charitable cause in New England, if Mr. Mellen will submit to an interview exclusively for this newspaper on the whole question of the New Haven Railroad deal, by Mr. Louis D. Brandeis, who will act for the AMERICAN.

"That this agreement was not entirely satisfactory to his road and that he still hoped to get into Boston."

"The need for a congressional investigation," concluded Marston. "An investigation by the committee for additional railroad legislation in New England, after the present New Haven charter has been renewed, is something from a million to a hundred million."

Holmes Testifies Business Side.

George H. Holmes of the Providence Group of Trunk promoted the commercial side of the "great deplorable railroad affair in New England."

The witness said that the manufacture of black and white goods was worth \$100,000,000 of raw or finished materials. We had to buy from the State of the New Haven lines as well as the land, and we were practically at their mercy.

Murray Makes Plea.

Chairman Henry called Representative Murray's attention to the fact that the House Committee on Merchant Marine and Fisheries has already investigated the ownership of the steamship lines and advocated that this phase of the matter be investigated.

Holmes replied that the rules committee was the proper one to consider the matter and concluded with an allusion to the investigation of the House of Representatives.

Representative Murray of Massachusetts said that the problem under consideration had national and international issues which recommended it to the attention of a committee separate from the Merchant Marine and Fisheries Committee.

He said that Congress can possibly clear up this matter and put an end to the money which was being paid in New England in its grip, said the Massachusetts Congressman. He is a special

testimony not printed.

These newspaper today, printing reports of yesterday's hearing before the Congressional Committee, were very careful to refrain from publishing any of the testimony with regard to the violations of the law committed by the New Haven Railroad in the past few years.

They were also very careful to play up the fact that the New Haven Railroad was not a monopoly, but a public utility, and that it was not a monopoly to keep from the public the important facts relating to the monopoly which came out at the hearing.

The fact remains that the Federal Government against the New Haven Railroad was dropped by Mr. Wickham and by Mr. Taff, within the weeks of the passage in Massachusetts of the Boston Harbor Harbor Company of South Boston, which was a monopoly to keep from the public the important facts relating to the monopoly which came out at the hearing.

The fact also remains that Attorney General Wickham, the Department of Justice has decided to have the prosecution directed against the South Boston Harbor Company of South Boston, which was a monopoly to keep from the public the important facts relating to the monopoly which came out at the hearing.

WILLEY ALIEN CASE TO RESULT IN FINE

DE LUXE BOOKS COSTING \$97,000 VIEWED BY JURY

Witnesses in the Grand Jury room today when the Suffolk Grand Jury, in special session, resumed its inquiry into the alleged deal which has cost \$97,000 and others throughout this country more than \$100,000.

These "de luxe" volumes were brought to the courtroom in an automobile by Inspectors Wall and McCarthy, who have been working on the case. The books were wrapped well in paper. The inspectors carried the "de luxe" evidence into the Grand Jury room, where witnesses were waiting to testify.

White's Statement.

Concerning the Congressional investigating committee before which I appeared, quoted from a letter written by a New York attorney, which included the statement that a man named Taff had been appointed by the New Haven directors to investigate the absorption of the New York and New England lines.

I distinctly told the committee that I did not know Mr. Taff, and that the statement was made in the letter and was not signed by a New York attorney.

It was therefore desirable to investigate, and that is why I submitted to the investigating committee. The letter was not anonymous, and it was signed by a New York attorney.

HELD AFTER FIGHT FOR BREAK IN LYNN

Having a loaded revolver and a box of cartridges hidden under a mattress, three men were arrested in the Malyville Street, No. 17 Cambridge street, early today, by Sergeant Burns and Patrolman John Harty of the 20th street station, charged with breaking and entering the jewelry store of William S. Newhall & Sons, No. 88 Market street, Lynn, and stealing \$500 worth of jewelry. When Burns and Harty broke in the door the three men were in bed. A desperate fight ensued. In the struggle Burns shot the revolver, early today. The prisoners are George Collette, twenty-eight, Benjamin Buba, seventeen, and Richard King, twenty-two.

New Alarm Felt for Czarevitch; to Name Duke Heir-Designate

PARIS, Dec. 11.—Indications that Grand Duke Alexis, the eight-year-old heir to the Russian throne, is falling fast to health are contained in a St. Petersburg telegram to the *Matin* today.

The message stated that the Grand Duke Pavlovitch, a cousin of Czar Nicholas, would probably be appointed heir-designate within a short time.

As the little Czarevitch is the only son of the Czar, it would be necessary to go outside his immediate family for an heir to the throne in the event of Alexis' death.

WASHINGTON ST. BURGLARS MISS \$25,000 JEWELS

Manufacturing jewellers and tailors in the building at No. 253 Washington street found today that burglars had stolen about \$25,000 worth of goods in the night, but had overlooked \$25,000 worth of cash and most diamonds in the jewellers' warehouses.

The same building was entered two years ago by burglars, who left this note:

"This is dead easy. Fine pickings and no trouble."

Two brothers named Hunt were arrested for this break. One was sent to Concord Reformatory and the other was put on probation.

The police heavy guard today into the present whereabouts of the Hunt.

HARVEST FETE WITH HISTORIC SPECTACLES

The harvest season will be celebrated at the South Bay Union, No. 640 Harrison avenue, tonight and tomorrow evening by a series of elaborate scenes illustrating the various historic harvest customs, beginning with a group of jolly merry-makers in old England.

The production is under the management of Miss Margaret Shipman, who had direction of the historical pageants in Franklin Park on the Fourth of July.

The young people who will take part are members of the club belonging to the union, and the proceeds will go toward decorating the hall and equipping the stage.

The new drop curtain, displayed for the first time, will bear the picture of a beautiful yellow wheat field, just ready for the sickle.

Among other episodes in the festival will be the wooing of Pricilla by John Alden, the piano conference between the early Plymouth Pilgrims and Chief Massasoit, and the hunting dog described by Whittier.

The Pilgrim characters will be taken by members of the Pilgrimage Club. The Boston Association will represent Massasoit and his warriors, who will execute a war dance.

The rustic appearing in the hunting dog include members from the Calverton, Mount Vernon and Carlisle Clubs.

The production is to be spoken by Miss Ida Milburn and interpreted in dance by Miss Bertha Schneider.

GIRL RISKS LIFE TO SAVE HORSE AND COW IN BURNING STABLE

BROCKTON, Dec. 11.—Florence Cary, the sixteen-year-old daughter of Fred W. Cary of 266 North Center street, twice risked her life to save a horse and cow, when the Cary home and stables were destroyed by fire with a loss of \$10,000.

Miss Cary ran into the barn and saving the horse started to lead the animal out. She had succeeded in leading it to the door, and the horse struggled so hard that she was forced to leave it to its fate.

Miss Cary succeeded in reaching the cow, however.

MOTHER FEARS MAN HAS LURED DAUGHTER AWAY

The strange disappearance of two girls, Miss Clara Battersly and Miss Esther Wales, from their homes at Haverhill has caused their relatives and friends much speculation.

The mother of Miss Battersly said today that she feared that her daughter had fallen under the influence of a man who had been paying attention to her and that he had lured her to leave home. Both of the girls have been missing since a week ago last night.

Miss Battersly lived with her parents at No. 112 Thornton street, Haverhill, and Miss Esther Wales, with a sister, at No. 30 Carroll avenue, Haverhill. The former is sixteen years old and the latter, seventeen.

Talks of Divorce Suit. Miss Battersly is a girl of striking appearance, having very light hair and a dark skin. She was employed as a stenographer on Summer street, Boston.

"A certain man has been paying attention to my daughter," said Mrs. Battersly. "He is married and a divorce suit is pending. I have tried time and again to warn my daughter about receiving his attentions."

Mr. Mary Fennell and Dr. C. F. Stevens, who were in their beds, were rescued when five houses were burning at once near the Lynn City Hall. The residential section there was threatened, and the loss was \$10,000.

The blaze started on the rear piazza of a wooden dwelling at No. 74 Hanover street. The wind carried the flames across the yard to the house of Dr. Joseph Stevens, which was the home of Dr. Stevens and his family. The fire spread to the house at No. 74 Hanover street, No. 106 Johnson street and on No. 80 Hanover street, an eighth of a mile away.

BOOM CAMPAIGN FOR \$2,000,000 GYM AT HARVARD

Spurred on by the declaration of H. B. Gill that "Harvard undergraduates have never been able to get anything for themselves," students at the university today are planning a campaign to raise \$2,000,000 for a gymnasium to replace the old gymnasium gym. Mr. Gill, who is president of the Speakers Club at Harvard, issued a statement at a meeting of the Harvard Forum last night when the campaign was launched.

He said: "As far as I have ever been able to discover Harvard undergraduates have never been able to get anything for themselves. Everything which has come to the university has come through the gifts of graduates. The men at smaller colleges will get out all work for gymnasiums and get them."

Even the girls at Wellesley will start a crusade similar above to get a student building, but Harvard men, all agreeing that there is a crying need for a new gymnasium, make no step toward getting one.

THE TRUTH. No. 1.

Thousands of newspaper columns, under glaring headlines, blazed with news of a railroad wreck which was beyond any preconceived human foresight. Columns of criticism, heartless caricature and political denunciation directed against the whole New England owned and New England operated railroad system followed. You may have noticed in some papers this single and comparatively small news paragraph exonerating the railroad and its employees from all blame:

Hartford, Conn., Dec. 4.—Chief Engineer Elwell of the Public Utilities Commission, in his report of an inquiry into the wreck of the Merchants' Limited Express over the New York, New Haven & Hartford Railroad, at Greens Farms, on Nov. 15, filed today, attributes the cause to a broken equalizer bar on a dinner which, dragging through a switch, disarranged the points and derailed the cars next following. Mr. Elwell said that marks of the dragging broken bar were discernible on the roadbed before the switch was reached. He finds that the rails, ties and switch fastenings at the points of wreck were in good condition. He says that at a joint hearing with the Interstate Commerce Commission it was conclusively shown that the defect in the equalizer bar could not have been seen at any car inspection. Mr. Elwell's recommendation is that railroad companies frequently make special examination of equipment with a view of locating defects in metal parts.

Not one New York or New England Newspaper reader in a thousand saw this paragraph of the official report which contains the truth of the whole matter:

"At a joint investigation held with the Interstate Commerce Commission in New Haven on November 20, all testimony was to the effect that the equalizer bar broke on account of a flaw in the metal, which was so covered by the pedestal casting and the journal box that it could not have been discovered by any car inspection, without removing the bar itself from the truck, and even then, might have escaped detection."

Nevertheless every Equalizer Bar has been ordered to be regularly uncovered and inspected.

The main line of New England's railroad system between New York, New Haven, Providence and Boston, is still unsurpassed in solidity of construction and general safety by any main line of any railroad system in the United States and is still being improved with—SAFETY THE FIRST CONSIDERATION.

A spirited election in Chelsea, in which the home of Mayor-elect Edward E. Willard was situated, charged with charges of fraud were made, resulted in the arraignment today of James Franklin, of Boston, in the Chelsea District Court, as an illegal voter. The contest in Chelsea, a shift in Newburyport from the dry to the wet column by a plurality of three votes and the defeat of five Mayors marked the elections in five Massachusetts cities.

SUFFRAGIST SAYS MAN MONOPOLIZES BIBLE AND RELIGION

CHICAGO, Dec. 11.—"Suffragism and the Bible," was discussed by Mrs. Laura G. Plam, business manager of the Working Woman's Home, in an address here. She said:

A woman cannot be a conscientious Christian and a suffragist also, because of man's monopoly of the Bible and religion. We cannot accept the Bible as a divine inspiration because it features the male sex in everything.

God is represented as a man, Christ as a man, the Apostles as men and the angels in heaven as men, and women are commanded to obey their husbands. Suffragists cannot accept the Bible literally as a divine inspiration. The Bible needs revision. It is set up to date.

DON'T PULL OUT THE GRAY HAIRS; A SIMPLE REMEDY RESTORES COLOR

Darkens the Hair, Stops Dandruff, Falling Hair and Itching Scalp.

"Pull out one gray hair and a dozen will take its place," is an old saying which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, flaking hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be falling out, send for the good, reliable hair-restoring treatment should be resorted to at once. Special.

Don't delay another minute. Start using Weyl's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

CASSASSA OPENS FIGHT TO LOWER PHONE CHARGES

The first formal step in the fight to secure lower telephone rates for the Massachusetts public was taken today when Representative Andrew A. Cassassa of Boston filed with the Clerk of the House of Representatives a resolution calling for the appointment by Governor Ross of a special commission to investigate and report to the Legislature recommendations for reducing of rates now charged. The resolve reads as follows:

The Resolve. Resolved, That the Governor appoint, with the advice and consent of the Council, a commission to be known as the commission on Telephone rates. Said commission shall make a thorough investigation of charges in this Commonwealth, and especially of the metropolitan district of Boston, for the use of the telephone, and shall report to the next General Court not later than January 15 next change in said rates in the commission may deem just and expedient and for the benefit of the public. The commission shall consist of three members, one of whom shall be designated as chairman by the Governor. The last Legislature recommended the revision of telephone rates, but referred the matter to the Highway Commission. On March 11, 1912, this measure was passed as a bill to the Highway board.

Laurence Minot Submits Plans for New \$8,000,000 Avenue as Best Means of Relieving Congestion in the Shopping District

Plans to solve the problem of downtown traffic congestion laid before members of the Real Estate Exchange today by Laurence Minot.

Laurence Minot, the well-known real estate broker, today laid before the Boston Real Estate Exchange his plan for a new street to be laid from Franklin street to Copley square. He believes that this thoroughfare, to be called Copley avenue, will relieve the downtown traffic congestion. It will cost \$8,000,000.

In speaking today at luncheon before the Real Estate Exchange, Mr. Minot said:

The congestion of the streets in the shopping district of Boston has reached a point where some remedy is a matter of imperative necessity. The introduction in last year's Legislature of a bill authorizing the construction of a street 100 feet wide, parallel to Washington street, at a cost of \$75,000,000, is a symptom of the popular demand that something be done to remedy an evil which has become intolerable. It is our duty to devise some thorough, adequate and practicable plan for the relief of the congestion. It is my privilege to present for your consideration a remedy, both drastic and costly, but a road remedy, sound and economical, which, in my opinion, is the best. It is not what you pay, but what you get for every penny you pay, that is the true measure of economy.

One cause of the congestion is that thousands of people who have no reason to visit the shops are obliged to pass through the congested district because there is no other way for them to go. The remedy is to build a new thoroughfare from the financial district along the easterly flank of the retail district, tapping the travel from the harbor and from the South Station, tapping the main thoroughfare of the west, and meeting finally at Copley square and the

Black Bay and Huntington Avenue Stations. Another cause of the congestion is the restricted area of the shopping district. Such a thoroughfare would enable it to expand along natural lines.

Another cause of congestion is that double or triple cars are in Washington street, Boylston street and Squam street. Such a thoroughfare would provide a new and better route for the cars, and their removal from the streets would reduce the congestion of these streets 50 per cent. for their terms of travel.
